## Keynote Speakers

### **Sharon Smith, Ph.D.**

Dr. Smith is a Professor Emeritus in the Department of Marine Biology and Ecology at RSMAS. Her research primarily focuses on the population dynamics, community structure and spatial distribution of zooplankton; particularly copepods. She was the Director of the Oceans and Human Health Center at UM, an interdisciplinary center bringing together University of Miami's expertise in both marine science and medicine.

### **Alberto Caban-Martinez, D.O., Ph.D., M.P.H., C.P.H**

Dr. Caban-Martinez is a board certified osteopathic physician and epidemiologist, and an Assistant Professor of Public Health Sciences in the Division of Environment and Public Health of the Department of Public Health Sciences at the University Of Miami Miller School Of Medicine. He is the Director of the Musculoskeletal Disorders and Occupational Health Lab and Associate Director of the Miami Occupational Research Group. His primary program of research concerns the prevention of musculoskeletal disorders among U.S. workers.
